

THE MGC GUARANTEE

WE GUARANTEE A MINIMUM OF
5 HOURS FLYING OR 30 CIRCUITS ON
A NORMAL 5 DAY SUMMER COURSE.

Normally you will fly a mixture of the two. It takes about an hour of glider time to do six 5 minute training circuits. When it is soarable we can switch from soaring to circuits to suit your stage.

If the weather is OK you should reach the guarantee quite easily and there is **NO UPPER LIMIT**.

We have equated the cost of a winch launch to 5 minutes flying. Adding launches and your flying time you must reach 300 minutes.

EXAMPLE

Say your total only comes to 230 minutes, we still owe you 70 minutes.

You can have that back later as a 65 minute soaring flight or 7 circuits or a mixture of the two.

Note:

All times are taken from the log book and rounded to the nearest 5 minutes.

An adjustment may be necessary if the refund voucher is used on a higher value course.
