

**MIDLAND
GLIDING CLUB**
FLYING THE LONG MYND SINCE 1934

SAFETY OFFICER

Martin Sloan is stepping down as the Club's Safety Officer at the AGM. This is a critical role in the running of the Club so we ask you to consider if you can step into this position.

The basic requisite is to have familiarity with the general requirements of the Health and Safety at Work Act, and ideally an Institute of Occupational Safety and Health qualification.

The role includes recording and reviewing incidents, improving SOPs in collaboration with the CFI and Committee, and maintaining mandatory safety requirements such as Fire equipment.

The Safety Officer is not a member of the committee but is invited to attend monthly online meetings which take place at 7pm on the second Thursday of the month.

Martin and Mike Greenwood will offer as much assistance as needed as you get to know what's required.

If you would like to discuss further then please contact The Secretary of the club as soon as convenient.

This is normally a volunteer role applied to a member of the club.
